

ANGRY: Fabian Hamilton in Sderot

MP's anger at world press for ignoring daily terror in Israel

FABIAN Hamilton was appalled and angered after visiting Sderot with a Parliamentary Foreign Affairs Committee delegation.

Inspecting a collection of debris of missile parts, the Leeds North East MP was staggered when told some of the latest rockets fired had been constructed from pipes supplied to Gaza through humanitarian relief for the sewage system reconstruction following the recent conflict.

He said: "If you have not been there, you cannot understand the fear and evil of Hamas rockets fired indiscriminately at Israel every day from Gaza.

"Why has the world's press and media failed to reflect the daily terror felt in Israel, when at any moment missiles might land."

The delegation was led by Sir John Stanley MP (Conservative) and included Sandra Osborne MP (Labour) and Paul Keetch (Lib-Dem).
