

VACSELE®

BRUSH-ON END GRAIN PRESERVATIVE

Recommended
for use with

- Vacsele® Aqua 6106 is a brush-on, end grain timber preservative for the re-treatment of cross-cut, notched or bored Vacsol® Aqua or Vacsol® Azure treated timbers.
- Maintains the integrity of the treated timber against fungal and insect attack.
- Easy to apply.
- Available in 25kg can sizes.
- Supplied in sturdy, resealable polykegs.
- Approved by the Health and Safety Executive - H.S.E. 5983.

DESCRIPTION

Vacsele® Aqua 6106 is a waterbased, end-grain preservative based on triazole technology. Triazoles are organic biodegradable biocides.

APPEARANCE

Vacsele® Aqua 6106 is a pale yellow thickened liquid with little perceptible odour.

USES

Whenever Vacsol® Aqua or Vacsol® Azure treated timber is cross-cut, notched or bored on site, the exposed surfaces must be re-treated with Vacsele® Aqua 6106 end grain preservative to maintain the integrity of the protective system.

APPLICATION

Apply by brush directly. Stir well before and during use. Use undiluted, liberally swabbing areas exposed by crosscutting, drilling or notching.

NUMBER OF COATS

Two liberal coats. Allow time for absorption along the grain of the timber before applying the second coat.

BRUSH CLEANING

Remove as much product as possible from the brush before washing with water. Please do not pour unused product or brush washings down the drain.

SHELF LIFE

Minimum 1 year in original sealed cans, stored away from extremes of temperature.

SAFETY NOTE

A material safety data sheet is available upon request at the contact details below.

Always read the label. Use pesticides safely. (Contains permethrin and propiconazole). Do not allow product to enter drains and watercourses.
