

# Machine Rounded Timber Products

Manufactured from sustainable sourced softwood timber, to produce a high quality and versatile, smooth and uniformed round post or half round stake and rail.

All stakes and posts are pencil pointed and with a chamfered top as standard, although they can be produced chamfered top only or square ended, upon request. All machined timber is pressure treated with Tanalith® E to meet BS8417.

If you require something that is not listed please contact us. Alternative sizes can be produced to order.

## Full Round Stakes

SIZES	OPTIONS	PACK SIZES
