

**More than just a Landlord**

**Knowsley Council**

Knowsley Council has teamed up with British Gas to bring you a free energy saving offer.

British Gas is offering two useful products, free of charge, to allow you to monitor and reduce your electricity use.

It would normally cost about £60 to buy the two products and you can claim for these even if your not a British Gas customer.

1. **The Standby Saver** looks and works like a multi-plug socket and can help reduce your electricity bill by up to £33 per year. It's easy to set up and once in use, it will detect when you switch off your TV with the remote control. It then cuts the power to everything else that is plugged in, saving electricity that would be wasted on standby. Switch the TV back on and all your appliances are ready to use again.
2. **The Real Time Electricity Monitor** shows approximately how much electricity you use in your home in real time. This can be shown in power or in pounds and pence. You can check things like how much appliances cost to use or the savings you could make from switching lights off. Because you can see the amount of energy you are using, you will feel more in control of how much you are spending.

Both products are simple to use and come with full instructions.

To claim your free energy saving products you should reply to British Gas. Complete your details on the coupon below and return it to the Freepost address.

British Gas promise to deliver them to your door within 28 days (while stocks last)

**Please complete all details on the coupon and return to:**

British Gas Offer, FREEPOST NWW1657, PO Box 7, Manchester M19 2PB

**Please tick the products you would like to receive:**

Standby Saver  
Monitor

Real Time Electricity

You do not need to be a British Gas customer, but please indicate if you are.
